I have my own studio in the Seattle area and have voiced hundreds of TV and radio campaigns for Microsoft, Nike, Subway, Arby's, The Beaches of Ft. Myers Sanibel, Jet Blue, Amtrak, Winter Park Resort, and many more.

I've voiced eLearning and courseware training projects for corporations and government contractors (The FAA, The U.S. Navy's Nuclear Submarine Program, The NIH, The National Highway Safety Administration, General Dynamics and many others).

Just voiced the launch for Microsoft's One Note for the Mac.

Here's a link to it: [https://www.youtube.com/watch?v=nDWhKx2n\\_Zs](https://www.youtube.com/watch?v=nDWhKx2n_Zs)

My studio is equipped with the best mics in the world, a Neumann u87 microphone and a Sennheiser 416 along with additional state-of-the art equipment to ensure high quality audio.

Please listen to my demo to hear the many styles of voice that I can deliver to your project. I look forward to voicing your next project!
